SUBJECT: Publications Review

DATE: 21 February 1947

1. I still feel that we should wait at least a couple of months before throwing this matter into the hopper. I agree with the previously expressed opinion of [REDACTED] that to present it at this time would tend only to create further ill will.

2. If we are going ahead with it, I recommend--

a. That our review be restricted to papers intended for interdepartmental dissemination, and that we do not attempt to bring into the picture any reports intended purely for departmental use.

b. That paragraph 4 of the draft marked Inclosure 5 (CIG Administrative Order No.) be renumbered as paragraph 5, and that a new paragraph 4 be added substantially as indicated below:

"If OCD determines that the material reviewed appears to be a duplication of other material already available or that any change or evaluation of content appears to be indicated, the report concerned will be referred to the Office of Reports and Estimates for final determination as to suitability for publication and distribution."
